# The Research Presented

## Thesis Title

The impact of change management on the quality of health services:  
This topic can be studied through a case study of a specific hospital.

Hospital management research focuses on organizing and operating medical institutions efficiently to improve the quality of healthcare. This is accomplished through tasks that include financial management, human resources, quality assurance and safety, strategic planning, and the application of modern technology. The primary goal is to provide excellent patient care while utilizing resources efficiently and improving the hospital's overall performance.
