OFFICIAL TRANSCRIPT

GPA = 85.3

Dean Office

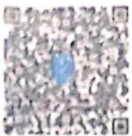

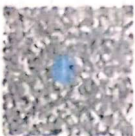

The Research Presented Thesis Title

Studying renewable energy technologies and
their role in mitigating the effects of climate change.

Research topics in environmental studies can include subjects such as "Analyzing the impact of microplastic pollution on marine ecosystems," "Studying the effectiveness of renewable energy technologies in mitigating greenhouse gas emissions," or "Assessing biodiversity and the impact of invasive species on local ecosystems." Other potential areas of focus include "Solid waste management," "Water quality improvement," and "Climate change."
